<b>Video Proposal</b>	<p><b>Just some ideas. ..</b></p> <p>1. Begin with a voice over of statics such as:</p> <p>Would you believe that. . .</p> <ul style="list-style-type: none"> <li>▪ 1 out of 5 kids has been sexually solicited online</li> <li>▪ 1 out of 4 kids has been sent a picture of naked people or people having sex online</li> <li>▪ that May 21, 2002 there was the first death of a child linked directly to an Internet Predator?</li> </ul> <p>This could be spoken while zooming in on a shot of a child at a computer.</p> <p>2. We could also fade into a shot of a mother and child leaning over a computer while asking the audience when was the last time they have talked to their children recently about internet dangers such as inappropriate sites, child abductions and abuse. . .</p> <p>3. We could also give some advice on how they could help their children such as online resources and games, frequently monitoring, and simply talking to them.</p> <p>4. ??????</p>
